SUMMARY

MCA graduate specializing in Cyber Security, comfortable across both general IT support and security-focused work. I've built a full cybersecurity learning platform from scratch, along with smaller security tools, and gone through structured coursework covering hardware/OS troubleshooting alongside cybersecurity fundamentals and threat detection. Currently working through the CEH certification. Comfortable with Windows, Linux, basic networking, SIEM concepts through Google Chronicle, and tools like Wireshark and Nmap. Looking for a role in IT support, security analysis, or SOC operations where I can keep building on both sides of that skill set.

KEY SKILLS

Technical Support: Hardware/software installation and troubleshooting, OS support (Windows, macOS/mobile basics), networking fundamentals, remote troubleshooting
Cybersecurity: SIEM (Google Chronicle), threat detection basics, cyber threat response, vulnerability awareness, social engineering prevention, Steganography
Network Analysis: Wireshark, Nmap, network connectivity troubleshooting, ports and cable identification
Networking: TCP/IP, DNS, HTTP/HTTPS, network fundamentals
Data: SQL (queries, data handling)
Programming: Python (working knowledge, basics)
Cloud: Google Cloud Platform (GCP), virtualization and cloud computing concepts
Data & Productivity: Power BI, Microsoft Excel
Languages: English, Kannada, Hindi

CERTIFICATIONS

- Certified Ethical Hacker (CEH) — EC-Council (in progress)
- IT Support Specialist Career Path — Cisco Networking Academy (Sep 2026), covering Hardware and Upgrade Support, Operating Systems Support, Security and Connectivity Support, and IT Customer Support Basics
- Introduction to Cybersecurity — Cisco Networking Academy (Jun 2024)
- Google Cloud Cybersecurity — Google Cloud Skills Boost (Feb 2025)
- Google Cybersecurity Professional Certificate — Coursera (Mar 2024)
- Aptitude & Soft Skills, Power BI, Advanced Excel, Career Preparation Program — Glisten Project Solution Pvt. Ltd. (Jun 2023)

PROJECTS

Provenix — Cybersecurity Learning Platform *github.com/Yashyosss/Provenix*

- Full-stack build: Next.js, React, Django REST, JWT auth. 30 games on network defense, incident response, and cryptography. Added rate limiting and input validation.

PixelPhantom — Duplicate File Detector *github.com/Yashyosss/PixelPhantom*

- Python tool for finding duplicate files via pixel/byte comparison. v2.0.0, 90/90 tests passing.

Steganography Tool *github.com/Yashyosss/Steganography-tool*

- Python app (Tkinter) that hides messages inside images. Dark mode UI, activity logging.

EDUCATION

Master of Computer Applications (MCA) — Specialization in Cyber Security *Sep 2023 – Aug 2025*
Jain (Deemed-to-be University), Bengaluru | CGPA: 8.52 / 10

Bachelor of Computer Applications (BCA) *Sep 2020 – Aug 2023*
Seshadripuram Degree College, Mysore | CGPA: 8.11 / 10

CORE COMPETENCIES

Problem Solving • Analytical Thinking • Technical Troubleshooting • Communication Skills • Quick Learning Ability • Attention to Detail
